Fine weather and light winds were the order of the day. A delayed start meant we only got 7 races completed and it required total concentration on the skippers to keep the boats moving in the light airs. Many a time a skipper's smile was wiped from his face when he sailed into a wind shift that favoured his competitor. Well done Neil P for a fine performance in the fluky conditions gaining a win on handicap and a creditable 3rd on line well done Don L for a 3rd on handicap. There were 2 sets of **new** sails being used today, Don L was trying out his JF sails and I was trialling a set of Wind Warrior sails made to the correct Electron size by Grant Mc Kinnon. Looking at the results it was pretty close with just 1 point between the two of us and to be fair it could have gone either way. Both sets of sails were quite different in appearance and both performed very well! Cheers have a great week Bunny.
