One of the great things about yachting is that there are no 2 days the same and finding the gear shift is the key to doing well. We had a strong SW wind with some gusts going over 20 kts which if they hit when approaching a mark caused the odd pile up, some boats being overturned completely. At one stage I counted 3 keels showing mine being one of them. All skippers were showing caution in the blustery conditions and it was good to report there was no damage to any of the boats. I did adjust the handicaps from last week by 5 seconds for everyone except for the scratch boats but noticed that some of the skippers not making use of their respective start times and suffering the consequence. Nice to see Lindsay and Bob from Bucks who were doing well but having to retiring early. Well done to Bill and Don and nice to see Dan not far behind in 4th place. Good luck to all the competitors in the Bucks Regatta in
