A good turn out with some new faces coming to race on a fine sunny day where we had light conditions for most of the morning. With a big fleet the Mark Foy starting sequence eased the congestion on the start line but the wind gods were having a field day with the lead boats dropping out completely and stopping them dead in the water. It was hard to predict winners as the lead changed hands frequently due to a fluky patch in the middle of the windward leg. Well done Don who had his boat going fast in the light conditions and also to Neil for his podium finish. I will adjust the handicaps for the 1st and 2nd place getters accordingly. Have a great week. Cheers Bunny.
