

**Re: Sailing break (Bruce Watson,
Mon Jan 5 09:25:09 2009)**

**Frequencies and sail numbers as at
November 2008.**

Dear Richard & All,

A Happy & Prosperous New year.

A small group (Geoff A, Geoff Mc, Harry, Bruce) meet at Gulf Harbour on 02/01. The day outing & day was excellent, but the wind was unusually fickle for GH - vertical at times. Harry made the best of racing, but all had good and bad placing.

Bruce Launched his new carbon fiber (without the hatch! fashioned one from cardboard) - although not fully ballasted, did not appear to have any speed differential.

The above group + Peter, Terry, met on Sunday at Op - wind and weather was excellent. A small quantity of floating weed, but this did not seem to stick to the keels or rudders for more than a one tack. A good set of 7 races - mostly won by Geoff Mc, using a boat from the top boat yard!

Also a new member visited - has purchased Simon's boat. [ed: Brett Bakewell-White]

Sorry for the limited publishing resource and lack of photos - I hope our professional editor will return next week!!

Kind Regards
Bruce Watson

From: Peter Andrews

Brett Bakewell-White is having problems with the keel. After looking over our boats yesterday he concluded that his keel was not fitting correctly in that it seemed to be protruding a bit. Also he can't get it out. I told him that that was not unusual. He is thinking of expoxing it in. Have you any bright ideas for him.

Incidentally the boys had a great time at Gulf Harbour (I pulled out at the last minute-My wife wanted to buy a washing machine) and it was suggested the squadron could set up some races there. Harry suggested Aniversary Day on Monday the 26th.

Those marked * are financial.

If there are two frequencies listed for a member then they will both be marked if the 2nd has paid the additional fee.

Those not marked may lose their frequency and/ or sail number if they remain unfinancial, and also they may not have their scores recorded.
