

Minutes of the Infrastructure and Environment meeting

December 1 2009:

IE-165 Update on Investigation and Management of the Chelsea Ponds and Onepoto Lakes

Author: Stormwater Operations Project Engineer, 18 November 2009

RESOLVED: (Holman/Gillon)

1. That the report be received.
2. That the option recommended in the report of dredging the Onepoto lakes to give a minimum water depth of 1.5 metres be approved.

RECOMMENDED: (Holman/Gillon)

3. That Council officers continue the required investigations in 2010/11 at a cost of \$56,000 for the Onepoto lakes and \$110,000 for the Chelsea ponds, with the source of funding to be determined through the 2010/11 Annual Plan process, and report the results of the investigation to the Auckland Council.
